

Mobile Doctor

User manual

Welcome to Mobile Doctor (hereafter MD).

MD is a user-friendly solution that has solely developed in order to serve Medical Professional needs, like keeping electronic health records (EHR)

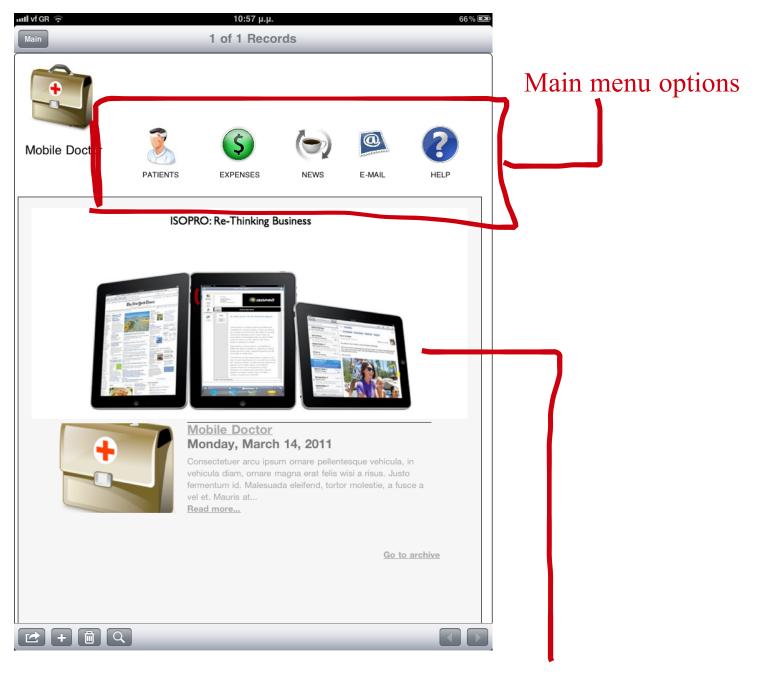

Patient's records can be kept:

- 1. On a typing form by using your iPad's keyboard
- 2. On hand written notes by using a stylus
- 3. On a voice- recording by simply addressing yourself to the microphone icon
- 4. Or just a combination of the above options

- Backup your data by synchronizing your iPad with iTunes.

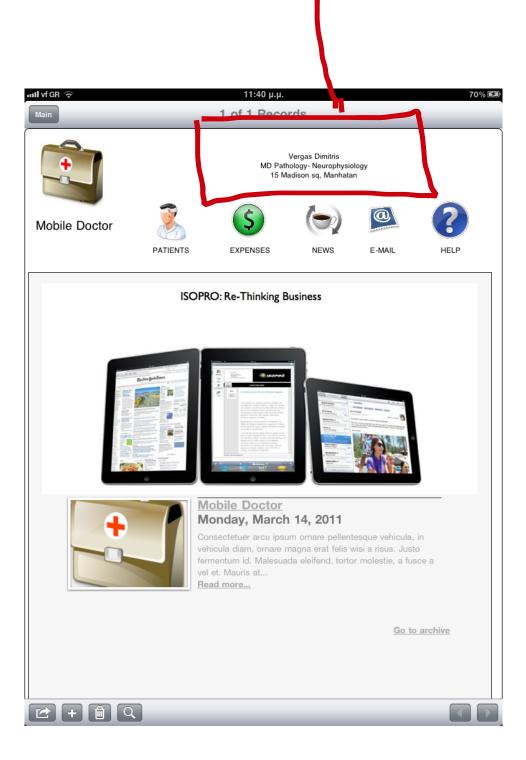

- Use the Apple's free of charge 'Find my iphone' service to protect and/or delete, your patients data stored in your iPad in case of accidental loss, steal etc or simply locate the exact location of your iPad.

- in case of loss synchronize your new iPad with iTunes and all data will be back in place

You can browse our website directly from the MD opening page without exiting MD and obtain all important information and FAQ about the MD Before you start, personalize the MD solution by inserting your personal information.

Personalization of your MD solution allows your personal information to appear in the prescriptions forms you either email or print.

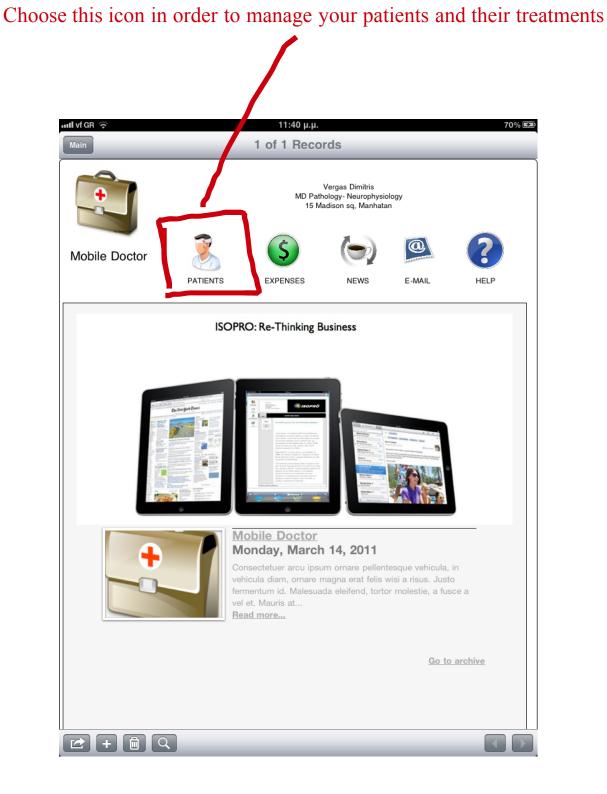

Patients

Manage your patients:

- Personal data
- Medical history
- Treatments
- Prescriptions
- Medical images
- To Be Done

i,

.

First time you work with MD there are no patient records
